SPOTLIGHTING ...

“Teaching from the heart, while learning differently” is the motto of Cibolo Green Elementary School’s Smart Lab, which was funded by a NEEF grant.

Jeanette dela Cruz, Special Education Teacher, bought equipment and supplies for a sensory room that helps K – 2 students develop sensory, emotional, and gross motor skills that are needed for complex learning tasks such as handwriting, and language development. The partition wall helps students feel safe and secure while they are learning around a special table. The work being done at Cibolo Green’s Smart Lab is nothing short of a miracle, as children are making great strides toward learning success.
