

EXECUTIVE DIRECTOR MESSAGE

Thank you for making the first half of our fiscal year successful. I am thrilled to announce that the Foundation has recently distributed the last of the Big Give checks to each school that fundraised. One of the top three fundraisers, Huebner Elementary School, is pictured above, being presented with a \$4,835 check to purchase safety window coverings.

If you missed out on the Big Give or Giving Tuesday, you can still make a difference in NEISD student outcomes by sponsoring our upcoming GALA or pledging a monthly donation through Community Team NEISD. You can also make a donation in someone's name as a holiday gift and it's tax-deductible. Your gift funds Student Impact Grants, which ensure the continuity of excellence in education throughout the District.

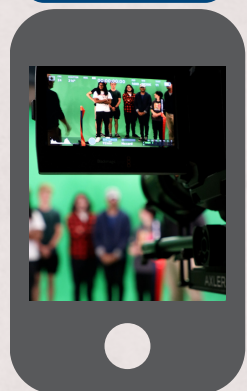

Once again, thank you for your continued support.

Warmest regards,

Katherine Rocha

NEEF BRIEF

December 2023

SPOTLIGHTING ...

At DATA at Roosevelt, the line between hard reality and virtual reality has blurred thanks to the new Virtual Production and Visualization Volume Space. The acquisition of equipment, software, and the construction of a giant curved Cyclorama green screen were made possible by teacher, Paul Fritz.

The project incorporates various curriculum pathways, such as film production, 3D animation, and game design. Students design both real and virtual sets, shoot video in virtual and real-world environments, and render out virtual productions in real time.

The possibilities are endless. Imagine an actor being shot in the green screen studio and simultaneously appearing in a fully digital world, just like in video games or Disney+'s "The Mandalorian." Thanks to the multiple camera setup and real or virtual lighting, it looks like the person is really in the virtual world or even in an augmented video of a real scene. It's mind-blowing!
